

What is an IBM Open Badge?

IBM credentials are recognized, respected and valued globally in the IT industry, but communicating your credentials in today's ever-expanding online marketplace can be challenging. IBM has established this opportunity, so you may easily and quickly share verified proof of your achievement wherever and whenever you choose. Where applicable, your IBM credentials will be represented by a digital image that contains verified metadata describing your qualifications and the rigorous process necessary to earn them.

What earning the z/OS Introduction Workshop badge represents: Successful completion of 4.5-day z/OS Introduction and Workshop and respective quiz of 65 questions, demonstrates above average familiarity with z/OS environment.

This above average familiarity includes z/OS access and navigation of data sources, programming languages and JES spool using TSO, ISPF, JCL, SDSF, SSH, FTP, Unix Services, VSAM, DB2, Communications Server, RACF, SMP/E, identification of base components.

***This is an IBM Open Badge eligible activity***

*This activity or program qualifies as an IBM Open Badge offering. In addition to any notification from IBM informing you of your completion status for this activity, you will also receive a separate IBM badge claim notification email from youracclaim.com upon successful completion.*

*IBM leverages the services of Pearson VUE's Acclaim service (a 3<sup>rd</sup> party) to assist in the administration of the IBM Open Badge program. In order to issue you an IBM Open Badge, your name, email address and badge earned will be shared with Pearson VUE Acclaim, who will treat your details in a manner consistent with IBM's policies. You will receive a notification from Acclaim at which point you will have the option to accept the badge.*
